Director, Management and Planning, DS&T

SUBJECT:

[redacted] DS&T Complex Support Services

25X1

1. This memorandum documents the DS&T desires for Support Services at the [redacted]. The two DS&T guiding principles are (1) that we would like to be as independent as possible from headquarters support services and (2) that we will negotiate floor space trade-offs from the DS&T space requirements to have the necessary support services in the first two buildings. In return, we would expect these trade-off spaces to be accounted for in the third building [redacted]. Therefore, I request time on the next steering group meeting agenda to discuss the overall site plan [redacted] for DS&T.

o The third building [redacted] will raise the requirement for support services to approximately [redacted] in 1988.

o If other buildings are planned for DA components, the requirement for support services would grow accordingly.

(DS&T recommends that the Agency plan for all [redacted] buildings on the site.)

25X1

o The Office of Security areas for guards, escorts and receptionists be planned for these [redacted] buildings with the primary OS area to be in building three. Reception sign-in areas should be maintained in each building.
